THE Herald, a paper that resolved that it would not support any person for office that was in the habit of using intoxicating liquors as a beverage, continues to publish a Beer Saloon advertisement, and occasionally gives the same establishment an editorial puff.

THE Prohibition Meeting, at Sears' School House on last Tuesday evening, was well attended, the house being full. It was addressed by David Mumme and Joseph A. Kelly. It is hoped that the friends of the cause will see that proper arrangements are made for holding the other meetings announced in this paper.

THE O. K.'s, of Zanesville, came here on Tuesday, as announced last week, and played the test game with the Hickories. On the first inning the Zanesville boys made one run to fourteen for McConnellville.

At the close of the game the Zanesville score of runs stood twenty-five to forty-four for McConnellville. This, we suppose, settles the question as between the clubs.

THE Herald, of last week, makes some pertinent inquiries relative to our daily mail to and from Zanesville. About one year ago we made a similar inquiry, and were informed that we got a one day's later mail by having it carried on the boat. We thought at that time, that this was all bosh, and now are satisfied that it is not. The trouble with the whole matter is that the contractors have undertaken to carry the mail for a ruinous remuneration, and consequently the public have to suffer the vexation of having it carried by boat, and thereby being behind time, or failing altogether as a daily mail, at least three times out of four.

The Post-office Department, at Washington, instead of forcing the contractors to fulfill their obligations to the people, contents itself with occasionally "docking" them. This "docking" the contractors are content to stand without grumbling, and so the matter goes along the interests of our people being totally disregarded. Even when the boat does get here on good time, it is very often the case that the mail is delayed by the delivery of the mail from a half hour to an hour. We don't wish to cast any reflection on the boat for this, for we presume it is not her fault. The boat consults her own interest in her landings, as it is right she should, and it is not made her interest to land on this side of the river first at all times, it is the fault of others and not of the boat. The Post-office Department should pay a reasonable price for carrying our daily mail, and then it should force the contractors to carry it as stipulated in the contract.

POCKET Cutlery! Splendid line, new styles, and an excellent assortment of Pocket Cutlery, of the best makes, soon to arrive at ADAMS' Book Store, and to be sold at low figures.

We have been handed, by Newell Corner, Esq., an official report of the proceedings of the Railroad meeting held in the Town Hall, of this place, on last Thursday evening; but, as it is but a more extended report of what we published last week, we will forego publishing it, and devote the space it would have occupied to this article.

Since the meeting on last Thursday night, the Railroad question has been the main subject of the street talk among all classes of our citizens, and we believe there are none but that feel contented that the time has now come when an investment of means for the purpose of building the Railroad may be made with a feeling of security that the road will be built.

Here in McConnellville, the committee appointed to solicit stock have been at work and have been very successful. Persons of all ranks and condition of life having come forward and subscribed in accordance with their means. Daily, almost hourly we may say, the number of subscribers is swelling; and it is hoped, and hoped too with good prospects of realization, that in a few days there will not be a man in our town able to do anything toward the Railroad, but what can say he has done his duty in that regard.

From all along the line, the most encouraging news is received. The people East of us are thoroughly aroused, and are putting their hands down into their pockets and responding liberally to the call for the cash.

This general move toward building a Railroad, is not without its effect on men in all branches of trade and industry. All seem to feel that their chances of a successful business career are about to be enhanced. Property owners, instead of wanting to sell out and move away, are evincing a desire to stay here. All feel that a Railroad has been our long needed auxiliary, and now that we are to have one, that the people have made up their minds to pull out the cash and build one, it is conceded that no more desirable place to live and prosper in can be found in Ohio than in Morgan County.

Tribute of Respect.

At a meeting of Corinthian Lodge, No. 111, P. O. M., held at their hall in McConnellville, Sept. 26th, 1871, the following preamble and resolutions were passed:

Whereas, It has pleased our Heavenly Father to remove from our midst, by death, our beloved brother, Austin S. Dickey, therefore, as an expression of our esteem for our deceased brother, and our sympathy with his family.

Resolved, That in his death we have lost a worthy brother, his family a kind husband and indulgent father.

Resolved, That with sincere sorrow we mourn the death of our beloved brother, and will ever keep in remembrance his great worth and many virtues, and the zeal and attachment he ever manifested to the principles and usages of our fraternity.

Resolved, That we tender our warmest sympathies to the bereaved family of our deceased brother, and that they be presented with a copy of these resolutions, and that they also be published in our County newspapers.

SAMUEL E. JONES, Secy.

Sept. 26th, 1871, by Rev. H. Cooper, Mr. James W. McVeigh, son of Orasmus McVeigh of Morgan County, and Miss Lydia Mills, of Washington County.

DIED.

Sept. 26th, 1871, of pulmonary consumption, Miss Fanny, daughter of Samuel Porter, aged 25 years.
